Description

The foundation of the Peavey AUREUS Mini digital mixer is professional quality audio in an easy-to-use package. The 8" multi-touch display allows users to access almost any control with just a couple of taps. It is the perfect match for live music, recording and other application environments.

Its powerful functions meet the needs of the most demanding professionals. The AUREUS Mini is flexible, portable, and easy to operate while ensuring professional mixing for less experienced users.

This digital mixer has cross-platform compatibility with iOS, Android, Windows, Mac OS, and Linux devices. It can be remotely controlled via WIFI with HTML5 compatible browsers on tablets, mobile phones, and computers. Up to 8 devices can connect simultaneously to control the mix.

Whether you are mixing in a club, church, conference center, sports field, arena, or any other place requiring professional audio, the AUREUS Mini is the perfect solution, providing excellent workflow and audio quality in a compact, easy-to-use format.
