Product Pitch

BEE BEE DEE is Beetronics' first-ever delay – it had to be special! A Bucket-Brigade-Device (BBD) Delay, with digital control: Analog where it matters. Digital where it inspires. Every sound a nod to the past. Every function a step into the future.

Whether you're chasing slapbacks or spiraling into pitch-shifted chaos, the BEE BEE DEE is designed to be simple to use, but deep enough to keep you exploring.

Product Features

- Analog Delay with 3 unique modes
- BBD (Bucket-Brigade-Device) technology with innovative digital control, complete analog audio path
- Classic Mode: True BBD tone with smooth sine-wave modulation that moves around your repeats.
- Lo-Fi Mode: Dark, gritty repeats with irregular LFO shifting delay time and tone; echoes drift/fade between bright and dark.
- Pitch Mode: Echoes shift in pitch, creating harmonies, rhythmic patterns, and unexpected textures. Delay becomes a musical instrument.
- 3 expressive performance options
- Tap: Set your tempo on the fly
- 2X: Halves the delay time, pitching everything up/down an octave
- Mod: Footswitch toggles modulation on/off or injects it momentarily like a burst of movement
- Tap to latch, hold for expressive jumps and returns
- Controls: Tone, Delay Time, Mix, Activity, Depth
- 3-way mini toggle Delay mode switch
- 3-way mini toggle Expression mode switch
- Footswitches (soft click): Bypass, Expression
- True Bypass
- Connections: In (1/4" Jack), Out (1/4" Jack)
- Dimensions: (LxWxH): 140x102x70mm
- Power supply (not included): Use an isolated 9V DC, 2.1 mm x 5.5 mm, center negative power supply
- Weight 455 g
- Made in USA
