

CRAZY TUBE CIRCUITS MIRAGE JR

Studio Grade Reverb Engine

- Item: 70828
- EAN Number: 5214001261505
- Packaging Dimensions: 12.6 x 7.6 x 6.9 cm
- Weight: 0.42 kg
- [Images](#) | [Translations](#) | [User Manual](#)

Need to know for retailers

- **Studio-grade Reverb Engine**
Mono, single-reverb-engine version of the senior Mirage unit: a unique platform for lush, layered textures tailored to musicians looking for a versatile reverb in a small enclosure.
- **16 Studio-Grade Algorithms**
From classic reverb types found in nature or vintage gear up to surreal, ambient tools designed for textures, pitch shifts, modulation, and immersive environments.
- **Easy to use, High End Reverb. Dynamic Real-Time Tweaks**
Hands-on format, intuitive, knob-driven control without menu diving. Fully reactive and expressive in live settings with expression pedal and footswitch-assigned parameter morphing.

Product Features

- Easy to use, high-end reverb engine (mono)
- 16 Reverb algorithms split into two intuitive banks: vintage/classic and ambient/experimental
- Studio-grade signal path with high headroom, clarity, and detail
- Analog-dry signal path
- Assignable expression footswitch and external expression pedal input
- Internal switches for bypass and mix mode selection
- Direct, playable interface for instant creative results - no menus to navigate
- Click-less true bypass design via high quality relay or buffered bypass with reverb trails
- Power-up bypass/engage preset function
- Controls: Mix Volume, Swell, Excite, Voice
- Shift switch for preset selection, selects the layer for the voice knob
- Assign switch for Expression
- Top mounted jacks
- Footswitches: Bypass, XF
- Connections: In (1/4" Jack), Out (1/4" Jack), XP (Expression) (1/4" Jack)
- Dark Abyss Blue die-cast enclosure
- Compact, rugged enclosure - designed for road use without sacrificing control layout
- Dimensions: (WxLxH): 124x69x58mm
- Max current consumption 115mA
- Power supply (not included): Use an isolated 9V DC, 2.1 mm x 5.5 mm, center negative power supply
- Weight 337g
- Made in Greece

Description

Mirage JR features a powerful studio-grade reverb engine offering 16 immersive algorithms, to help you shape sonic environments from vintage realism to deep ambient dreamscapes with endless room for creativity.

Whether dialing in tight spring slapbacks, massive cathedral echoes, or surreal shimmer-scapes with modulation and pitch shifts, Mirage Jr responds intuitively with real-time performance tools like expression control and footswitch-based parameter morphing.

With an analog dry path, studio-grade clarity, and a menu-free user interface, Mirage is as direct as it is deep—equally at home on a pedalboard, in a synth rig, or on a studio desk return.

Mirage Jr puts studio-grade reverb control at your feet - with endless room for creativity.
