FABLE

STEREO GRANULAR SOUNDSCAPE GENERATOR

Let your storybook adventure grow with the Fable Granular Soundscape Generator. Using our MDSP chip to run multiple algorithims in series, with complex nested feedback paths, the Fable gives you five programs centered around sample and chop delay algorithms to create bizarrely beautiful networks of sampled and resampled sounds. Find unique soundscapes ranging from smooth, flowing ambience; to bizarre, organic reverberance; to chaotic, glitchy swarms.

Programs:

I. Reverse Delay into Reverse Granular
II. Forward Delay into Octave Up Granular
III. Analog Delay into Octave Down Granular
IV. Multi-Tap Granular into Multi-Tap Granular (Grain-Verb)
V. Forward Delay into Randomized Pitch Granular
