Need to know for retailers

- Part of the Peavey Legacy Preamp Series pedals, celebrating Peavey's 60th Anniversary. This series features miniaturized versions of iconic Peavey amplifiers that have become highly sought after in recent years.
- Captures the tone of the 19" Rock Master Tube Pre-Amp Ultra-Channel from the early 1990s.
- Tube-Era Feel with TransTube technology.
- Equipped for authentic tones, with Pre and Post Gain controls, Gain Boost and Mid Shift switches, and a powerful active 3-band EQ.
- With stepped-up 30V rails, the Rock Master® Preamp Pedal delivers the headroom high-gain players need, keeping your tone tight and powerful at any level, while being powered by a standard 9V DC power supply, or a 9V battery.
- Built for global retail readiness, featuring hard bypass with anti-click circuitry, and independently tested for CE, FCC, and EMC compliance.

Product Features

- Recreation of the 19" Rock Master Tube Pre-Amp "Ultra-Channel" from the early 1990s in a pedal format
- Tube-Era Feel with TransTube technology
- Gain Boost switch adds extra saturation
- Mid Shift switch shifts the frequency of the "body" control
- 3-band active EQ
- Stepped up internally to 30 V, for high gain with high headroom
- Controls: Pre-Gain, Post-Gain, Bottom, Body, Edge
- Footswitches for Bypass and Gain
- Designed to perform equally well into amps and power amps
- Hard bypass switching with built-in anti-click circuitry for silent operation
- Rugged die-cast enclosure built with premium components
- Powered via standard 9V power supply or battery (max. power consumption 100 mA)
- Output impedance: 1 kΩ
- Measurements: (W x D x H): 920 x 122 x 570 mm
- Weight: 0,4 kg

Description

The Rock Master® Legacy, Reborn - Our original Rock Master® preamp became a favorite for its fire and flexibility. This pedal brings that voice back in an easy-to-use format.

Active EQ with Bottom, Body, and Edge controls, cut or boost like a pro mixing console, giving you precise tonal control far beyond a standard EQ.

Tube-Era Feel with TransTube® Tech. The Rock Master® Preamp Pedal captures the character of the Ultra channel using Peavey's TransTube® circuitry engineered to deliver authentic tone and touch from a standard 9V supply.

Dynamic Range without Limits. With stepped-up 30V rails, the Rock Master® Preamp Pedal delivers the headroom high-gain players need, keeping your tone tight and powerful at any level.
