

WALRUS AUDIO CANVAS CLOCK (MIDI Controller)

- Item: 66796
- EAN: 810424036772
- Packaging Dimensions: 14.6 x 10.7 x 6.4 cm
- [Images](#) | [Translations](#) | [User Manual](#)

Full Feature List

- All-in-one tempo management solution for your pedalboard
- Synchronize any device that relies on tempo, time, or BPM
- Comprehensive MIDI and analog clock management
- Master Song List contains up to 128 songs with name, BPM, and MIDI Macro information
- Manage songs in various setlists
- Define up to 128 programmable MIDI Macros, each with up to 15 MIDI commands (Program Change, Control Change, etc.)
- Use MIDI Macros to change presets on Multi-FX pedals, for example, when recalling a song
- Four fully customizable TRS jack connectors for Tempo Out, CV Out, Switch In, and EXP In
- MIDI Input and Output via DIN and 1/8" connectors
- Send clock and expression to pedals that don't have MIDI
- 2.8" TFT LCD display with perfect visibility even under stage lights or sunlight
- USB-C connectivity for firmware updates and to manage settings, songs, and setlists via a dedicated web app
- Footswitches A and B are assignable (e.g., step through songs, tap tempo)
- 1/8" metronome output
- Sync In/Out jack for Eurorack
- Power requirement: 9V, 300mA
- Designed and assembled in OKC, USA

Short description

The Canvas Clock is designed as a way for all of your time-based effects to be synchronized with the press of a switch. With MIDI Input/Output, 4 fully configurable 1/4" jacks, metronome output, sync input/output, and USB-C connectivity, you are truly able to synchronize almost any device that is associated with tempo, time, and BPM.
