

Short Text:

The Canvas Rehearsal is the ultimate all-in-one rehearsal tool, designed specifically for musicians who use effect pedals. It allows you to listen to your instrument through headphones, play along with tracks via Bluetooth or a 1/8" auxiliary input, and practice with a built-in metronome to ensure precise timing. This versatile tool is the perfect end-of-chain solution, helping transform your practice into perfection when it's time to perform.

Features:

- All-in-One End-of-Chain Rehearsal Tool
- Features a 1/8" headphone output and 1/4" jack mono and stereo output
- Stereo and mono 1/4" jack inputs
- Play along with music via Bluetooth or 1/8" stereo auxiliary input.
- Practice with built-in metronome that can be set from 40-250 BPM.
- Set BPM via encoder knob or tap in.
- Independent volume controls for guitar input, metronome, and auxiliary input.
- Fine-tune your meter, tap division and accent beat for a fully customized metronome experience
- Easy-to-read OLED display showing BPM, meter, division, and click accent
- Control through standard MIDI messages and passes all MIDI data through.
- Operates with 9V DC, 300mA, center-negative power supply.
- Designed and assembled in the USA
