Need to know for Retailers

- Tone Tweaker is the first Carl Martin release in a while, marking a significant update for the brand.
- One of the last products designed by Søren Jongberg and his team, who have worked their magic with Carl Martin products for decades.
- Combines a clean, transparent 12dB boost and a 3-band EQ (Mid, Treble, Bass) in one pedal.
- Use the boost function to make your tube amp shine or cut through the mix during solos, and give some extra punch to your rhythm play.
- Use the 3-band EQ to fine-tune your tone by adding warmth to your mids, sparkle to your highs or depth to your lows.

Full Feature List

- 12dB clean boost with 3-Band EQ
- Comprehensive 3-band EQ (Bass, Mid, Treble) with +/- 12dB per band.
- Transparent clean boost to cut through the mix during solos, add some extra punch to your rhythm play and make your beloved tube amp shine.
- Add warmth to your mids, sparkle to your highjs or depth to your lows.
- Equally useful for studio and live applications.
- Subtle but powerful impact on your overall tone.
- Provides extra headroom and boost with the internal voltage booster.
- Frequencies of 3-Band EQ: Bass: 40 Hz, Mid: 1kHz, Treble: 10kHz
- Top-mounted in/out jacks for maximum pedalboard efficiency
- Rugged, road-ready enclosure.
- Buffered Bypass ensures consistent signal quality.
- Power requirement: 9 V DC, 60 mA minimum.
- Dimensions: 11.2 x 6 x 5 cm
- Weight: 0.23 kg
- Designed by Søren Jongberg & Carl Martin Denmark

Description

Unleash the full potential of your favorite gear with the Carl Martin Tone Tweaker, a 12dB boost pedal and 3-band EQ designed for musicians who demand tone tweaked to perfection.

This subtle yet powerful pedal features an internal voltage booster that increases the voltage sent into the pedal's circuit, creating significant headroom and a volume boost. This makes it perfect for cutting through the mix during solos, adding extra punch to your rhythm playing, and making your beloved tube amp shine like never before.

The Tone Tweaker is equipped with a comprehensive 3-band equalizer, allowing you to fine-tune your tone with dedicated controls for Mid, Treble, and Bass. Whether you want to add warmth to your mids, sparkle to your highs, or depth to your lows, the Tone Tweaker gives you the tools to shape your sound with unparalleled impact – subtle, but powerful.

Developed by the same team that has worked their magic with Carl Martin products for decades, the Tone Tweaker is built to withstand the rigors of the road with its durable construction. The top-mounted in/out jacks and compact design ensure maximum pedalboard efficiency and a cleaner setup. The buffered bypass maintains signal strength and tone quality, ensuring your sound stays consistent, even when the pedal is not engaged.

Whether you're performing on stage or recording in the studio, the Tone Tweaker is a significant tool to elevate your sound to new heights. Shape your tone, boost your signal, and let your gear shine with the Tone Tweaker.
