

BLACKSTAR Silverline Series (EQ / Boost Utility)

Unique Selling Points

- High-end digital performance and flexibility with boutique sounds and simple, guitarist-friendly controls.
- Dual patent design: Infinite Shape Feature (ISF) and True Valve Power (TVP)-based Response.
- Celestion V-Type speakers
- Designed by the same team responsible for Blackstar's acclaimed valve amps. High-performance SHARC® DSP platform runs algorithms that recreate analogue circuit parameters with supreme accuracy right down to component level. These are not modelling amps in the usual sense of the word – Silverline amps provide stunning boutique 'valve tone' on a highly powerful and flexible digital platform.

Features

- State-of-the-art digital guitar amplifiers with groundbreaking SHARC® DSP power
- Attractive, boutique styling
- Response control based on patented TVP technology accurately reproduces the nuances of classic power amp circuits (EL84, 6V6, EL34, KT66, 6L6, KT88)
- Patented ISF sweeps from American to British tone
- 6 proprietary Blackstar preamp voices (Clean Warm, Clean Bright, Crunch, Super Crunch, OD 1, OD 2)
- USB port offers effortless direct recording and re-amping
- INSIDER software unlocks deep-editing features and patch management/sharing
- MP3/Line In and Em. Out/Phone jacks deliver studio-ready tone for 'silent' practice
- Powerful enough for any stage, subtle enough for home
- Manual and Preset operation with 12 fully customizable preset locations (128 with footswitch)
- Loaded with Celestion V-type speakers

Description

Introducing the new standard in digital guitar amplification, the Blackstar Silverline Series.

Blackstar has long been a leader in innovative guitar amplification. Now, the boutique-styled Silverline Series is the next gigantic step in their immensely popular digital amp evolution. With their valve-like tone and response, effortless control and the Company's most potent DSP to date, Silverline boasts all the power, sound and feel of today's top-tier modelling products with the player-friendly, tactile control of a great valve amp. Finally, the benefits of digital performance without compromise.

True boutique character, tone and response from our most powerful digital amplifiers ever. The unique dual patent design, powered by a state-of-the-art SHARC® processor delivers uncompromising tone for every playing style, in a simple-to-use guitarist-friendly combo or head.
