- Designed by BLACKSTAR UK

## Description

Whether your acoustic guitar is a parlour, dreadnought, or grand auditorium the FLY 3 Acoustic will give you more. From filling out your sound to reach more people, or angled back to act as a personal monitor, its natural sound reproduction will enhance your performance. The two switchable EQ shapes give you either a flat response or a mid-cut with some low and high boost, and the built in echo effect adds a natural ambience to make playing a pleasure. As with FLY products they have great battery life and the option to add the FLY 103 Acoustic powered cabinet to create a stereo 6 Watt set-up. Also available in the popular pack format including the FLY PSU-1. Get a fuller bodied sound now, with FLY 3 Acoustic.

MP3/Line in for jamming along to music

Play audio from your phone, MP3 player, tablet or laptop through the Fly 3 Acoustic or Fly 3 Acoustic stereo pack using an AUX cable. You can also plug headphones into the Fly 3 Acoustic via the EM. OUT and PHONES socket.

### Expand Your Rig

Expand your rig to run in stereo with the FLY Acoustic 103 powered extension cabinet. (Optional extra or included in the Fly 3 Stereo Pack)

The PSU-1 mains power supply is the perfect add on when you're jamming inside. (Optional extra or included in the Fly 3 Stereo Pack)

### Fly Acoustic Pack

Also available as the Fly 3 Acoustic stereo pack. Connect the Fly 3 Acoustic and the Fly 103 using the Fly 103 Acoustic's built-in cable to create a 6W stereo set up. The Fly 3 Acoustic stereo pack also includes the PSU-1 mains power supply.
