Specifically, all materials and components supplied by Powersoft S.p.A. do not contain the substances listed in next table below in concentration above the maximum limits:

SUBSTANCES BANNED BY THE ROHS III DIRECTIVE	MAXIMUM CONCENTRATION LIMITS FOR HOMOGENEOUS MATERIAL*

\* The restrictions are on each Homogeneous material in the product, which means that the limits do not apply to the weight of the finished product, or even to a component, but to any single substance that could (theoretically) be separated mechanically. Homogeneous material means a unit that cannot be mechanically disaggregated into several separate materials.
