Description

Blackstar's brand new ID:CORE V4 10, 20 and 40 are the successors of the market leading V3 series with upgraded features for the way you play today. Perfect for those just starting out or for those more experienced players looking for a high-quality practice and home studio recording amp. ID:CORE V4 features amazing tone, immersive Super Wide Stereo sound, CabRig™ Lite, Blackstar's patented ISF tone control and USB-C connectivity, plus for the first time, power reduction down to 1W allowing you to play at lower volumes without sacrificing tonal quality. Easy high quality livestreaming connectivity and linear speakers for movie, gaming and music audio playback make entry level amps perfectly suited to the way people play at home. ID:CORE V4 is compatible with Blackstar's free Architect Software, our interface for controlling and customizing advanced features, including the state-of-the-art CabRig™ Lite software. CabRig™ Lite is Blackstar's next-generation DSP speaker simulator that reproduces the sound and feel of a mic'd up guitar cab in incredible detail.
